NPWR Research Grants

Purpose: To support research studying Nevada's most challenging policy problems in the areas of workforce development, economic diversification, and education

Eligible applicants are researchers, scholars and/or academics located in and residing in the State of Nevada or working directly for a State of Nevada department; such applicants may represent or be a part of public and private organizations, institutions, and entities interested in asking research questions that address policy problems facing Nevada using NPWR as the evidence-based data-driven research tool.

Inaugural 2023 NPWR Research Grants:

Workforce and Economic Development

- The Brookings Mountain West's project, The Gender Gap in Nevada: A K-12, Higher Education, and Workforce Study will explore the gender gap in Nevada and propose public policy interventions to improve educational and workforce outcomes;
- The Kenny Guinn Center for Policy Priorities and the University of Nevada, Las Vegas (UNLV) Center for Business and Economic (CBER) Research's project An Analysis of Nevada's Pre- and Post-Pandemic Labor Force Participation Rate will identify and evaluate factors contributing to Nevada having the 3rd largest decrease in labor force participation following the pandemic;
- The University of Nevada, Reno's (UNR) University Center for Economic Development's (UCED) project Examination of the Relationship between Workforce Development and Housing, Education and Childcare Services, and Healthcare Services will explore how labor force barriers impact workforce and economic development and business creation, retention, and expansion abilities.

Inaugural 2023 NPWR Research Grants:

Education

- The Lincy Institute's project Nevada K-12 Performance and Implications for Economic Diversification will evaluate the differentiating factors between Nevada's highest and lowest performing schools and districts in terms of on-time graduation rates, performance on standardized tests, and college-going rates;
- UNLV's Center for Research, Evaluation, and Assessment's (CREA) project Piloting School Funding Equity: How the Enactment of Senate Bill 178 Impacted Student Outcomes After Graduation explores how Nevada's student funding pilot program impacted students post-secondary and vocational outcomes;
- Dr. Megan Rauch Griffard from UNLV's Department of Educational Psychology and Higher Education's project Dissecting the Educator Talent Pipeline and Educators' ROI in Nevada will focus on whether CTE certificates in education concentrations lead to eventual employment in education, seek to understand how long NSHE education majors take to earn their desired degree by educational attainment level, and how the wages of educators compare to other workers with comparable education and experience in Nevada by educational attainment level.

Inaugural 2023 NPWR Research Grants:

Students

- Anna Dreibelbis-Colquitt, a UNLV law and doctorate student, for her project Assessing Career Readiness Gaps in Nevada to understand what the gaps are in soft skill development in CTE programs across Nevada.
- Curtis L. Cobbins, a doctorate student, for his project Causes of Innovation Engineering Management Failure in Workforce Development Within the Nevada System of Higher Education to understand how strong the correlation is, if any, between employee analysis of skills gap alignment and the role of innovation engineering management.

NPWR Strategic Plan

Act as the goals and guide for NPWR

Address gaps and resources that can help NPWR grow to become a more valuable tool to the entire State, through modernization efforts and bringing resources and talent in-state to work to help our citizens, departments, researchers, and resources as a whole

NPWR Strategic Plan - Goals

NPWR Structure

- Add dedicated analysts
- Add dedicated data integration specialist
- Dedicated NPWR server

Modernize

- Increase data from current partners and add new partners
- Update website
- Improve portal process for researchers

Funding

- Target State, Federal and Private funding

NPWR Strategic Plan – Structure

Incorporate a NPWR analyst position at NDE, NSHE, and DETR

- NSHE analyst oversees NDOC, NDVS, B&I
- DETR analyst oversees NevadaDMV, DHHS (upon onboard of additional data sets)
- NDE analyst focuses on more dashboards, especially mapping/GIS capabilities to tie in its students more on the workforce side

Would work within departments but have a key understanding of all NPWR data

- Help buildout more reports on NPWR and within agencies dashboards that would incorporate NPWR data
- Help drive research thoughts and questions, work closely with researchers on their data requests and validating research that is produced

Data integration specialist will work within NPWR system to help agencies and researchers with their data

NPWR server for all partners to send their NPWR data

NPWR Strategic Plan – Modernize

1

Ensure NPWR is accessible to all legislators, employers, jobseekers, researchers, media, etc.

- Update website for public facing and portal for the internal researchers

2

Enhance the capacity to collect, measure, store, and analyze data related to job quality

NPWR Strategic Plan – Funding

The first two goals of updating and enhancing the NPWR system are very much dependent on funding

- Reviewing current budget
- Building asks into budget build

GOWINN is also committed to pursuing other funding opportunities through federal grants and private foundations

NPWR Research Grant Awardees 2024

Increased available funding from \$100,000 to \$230,000

Proposals were due on Monday, November 27, 2023

Received 17 applications

Awardees will be announced in the next few weeks

The awardees will present at the December 2024 Research Forums
