Wagner-Peyser Performance Measure Updates

- 3,561 job seekers registered in March is 25.81% lower than the planned goal of 4,800. The improving economy with less people looking for work is reflected in a significant decline in the unemployment insurance rate (5.2% in February 2024).

Program Initiatives

- ROADS: The goal is to train 75 participants during the course of the contract in high-demand occupations for the Southern region of Nevada in fields such as cyber security, advanced manufacturing, truck driving, and health care to name a few. CSN's first quarterly report is due on April 1, 2024.
- Early Childhood Education (ECE): TMCC has enrolled 24 participants; WNC is hiring an ECE program manager; CSN has enrolled 20 participants; GBC has enrolled 28 participants.
- Coursera: Continued focus on outreach opportunities to engage new Unemployment Insurance (UI) claimants and promote LearnNV through social media, job fairs, and hiring events. EmployNV Career and Business Hubs staff are well versed in encouraging LearnNV use for their clients.
