

Policy Summary

SCP 1.15

Adult/Dislocated Worker Support Services & Needs-Related Payments

As part of its' responsibility to provide guidance and direction to the Local Workforce Development Boards (LWDBs), the Department of Employment, Training and Rehabilitation (DETR) follows federal guidance in creating policy to implement the Workforce Innovation and Opportunity Act (WIOA). These policies are necessary for efficient and stable operations of the workforce system in the State of Nevada. As such, DETR has provided SCP 1.15 to the Governor's Executive Committee for review and approval.

This policy provides WIOA requirements for the Adult and Dislocated Worker (A/DW) supportive services and needs-related payments. The purpose of this revision is to update the formatting, federal regulations, and references throughout the policy, in addition, hyperlinks have been added for easier accessibility to reference documentation. This policy is being revised for compliance and to provide clear and concise guidance to the LWDBs for local area policy development. As such, references to rescinded TEGl 03-15 have been removed and the policy updated with several newly issued TEGls to reflect the most recent directives from the Department of Labor (DOL). A more comprehensive list of allowable and disallowable services, under 20 CFR § 680.900, has been added to avoid ambiguous language in the prior version of policy. Outdated verbiage has been removed that referenced an older Management Information System (MIS) used by WISS.
